Re: Shelf Life of Grease Products

We guarantee our unopened grease products for twelve (12) months after date of delivery, provided that the goods are "kept under good condition."

Grease products are "kept under good condition" when they are stored in a cool, airy place.

If grease products are kept under poor condition where they may be exposed to high temperature, high humidity, and/or sudden change of temperature, it is subject to drastic change in viscosity, appearance, and/or oil separation.
