# READ FIRST

This PDF version of our current brochure consists of separate single and 2 page PDF files. Pages are set to **Fit in Window** and to display as **Single Page**, or **Continuous - Facing**.

## PAGE LINKS / NAVIGATION:

There are **Page Link Buttons** on all pages to navigate through the PDF files, **Folio Numbers** are located centre top of all pages and are in Brochure sequence (eg: a two page file would be 6 and 7 - **NOT** 1 and 2) .

Their is a link to the **Index** on all pages.

The **Product Range List** has links to the pages relevant to each Product shown, these pages have a link back to the Product Range List.

**BACK** opens the file that is back numerically from the page being viewed eg: if you have opened pages 10 and 11 from the Index page pressing the BACK button will open pages 8 and 9.

**NEXT** continues to the next PDF file.

To increase the size of the file being viewed use the **Magnification Tool** for a specific area on the page or make a selection from the **View** menu, eg: Actual Size.
To move around the page or pages when enlarged use the applications **Scroll Bars**.
