

JENA TEC

The 6050m² manufacturing centre in Jena

Jenaer Gewindetechnik GmbH, Jena Rotary Technology Ltd and Jena-Tec Inc. specialise in the design and manufacture of precision engineered ballscrews and precision gears.

Part of an international group, the companies have established the JENA-TEC ballscrew range as a primary force in linear actuation engineering - throughout Europe and North America.

Within the Jenaer Gewindetechnik GmbH manufacturing and resources centre, one of the largest and most advanced of its kind in Europe, R&D, manufacturing, engineering and quality controls are undertaken by a workforce drawn from a community renowned worldwide for its engineering qualities and skills.

Chosen by machine tool manufacturers and original equipment manufacturers requiring absolute accuracy in linear movement, the JENA-TEC range of precision ballscrews provides the optimum solution.

JENA-TEC product is certified to meet all international accreditation, including DIN EN ISO9001.
