Interchange to Marathon Series Composite Mounted

Bearing Units begins on page 6. The general listing,

including High Precision, begins on page 18

This Interchange to MRC Bearings is designed to provide fast and easy conversions of manufacturer or competitor numbers to the MRC equivalent numbers. Since competitors' designs may vary from MRC designs, MRC Bearing Services makes no claims about performance equivalence. The interchange information was compiled using data available at the time of publication; however, MRC Bearing Services assumes no responsibility or liability for errors or omissions.

This catalog contains information that will allow you to quickly and easily locate the MRC bearing that interchanges with other manufacturers' bearings. Interchanges to MRC products are made in the following product categories.

- Marathon Series Composite Mounted Bearing Units
- Single-row deep groove ball bearings
- 'Max-type' single-row filling notch ball bearings
- 15 degree angular contact ball bearings
- 29 degree angular contact ball bearings
- 40 degree angular contact ball bearings
- Double-row ball bearings
- Nice specialty bearing products
- MRC special niche bearings:
 - Ball screw support bearings
 - High precision bearings for Ex-Cell-o, spindles
 - Mast guide bearings
 - Conveyor roll bearings
 - Cartridge-type bearings
 - Adapter-type bearings
 - Felt seal replacement bearings

The interchange numbers for the Marathon Series Composite Mounted Bearing Units are in a separate section beginning on page 6. The general listing begins on page 18.

Our purpose in providing this catalog is to make it easier for you to locate and put into use MRC products. It is our intent to supply the bearings aftermarket with many popular ball bearing types as well as special ball bearings for niche markets and applications. If you have such an application, or you would have a special ball bearing that you would like to replace with an MRC product not listed in this catalog, please contact us at 1-800-MRC-7000 with your inquiry.

This catalog is presented in a simple-to-use sequence similar to a dictionary listing. Each page will show, on its upper outside corner, the basic bearing designations that are to be found on that page. Each entry in this catalog has four columns. Going from left to right within an entry, each original equipment/bearing manufacturer's number is arranged in left-to-right alphanumeric sequence. There is no need to predetermine the Prefix-Base-Suffix to quickly locate the desired number. Letters (alpha) take priority over numbers (numeric). Second, you'll find the MRC code for the original equipment/bearing manufacturer. Third you will find the MRC bearing number. In the fourth column you will find listed for each entry the MRC bearing type. This last bit of information will help you refer back to the appropriate section in publication M190-730, the MRC Engineering Handbook, for dimensional information.

EXAMPLES

A number such as A1 would be listed before 1A:

A1

1A

A number such as B11 would be listed before 11B:

B11

11B

A number such as 222A would be listed before 2222:

222A

2222

Further, a number such as 309MFF would precede 309MFG and would precede 310:

309MFF

309MFFZ

309MFG

310

310M

OTHER EXAMPLES:

followed by 5204A2RSNR

The High Precision bearings listed are manufactured to ABEC 7 grade. They have fabric reinforced phenolic resin cages, and duplex bearings have a light preload.

Warranty

MRC Bearing Services warrants that products sold by it shall be free from defects in material and workmanship. MRC Bearing Services' obligation under this warranty is expressly limited to furnishing without additional charge a replacement, or at its option, repairing or issuing credit for any product which shall within one year from the date of sale be returned freight prepaid to the plant designated by an MRC Bearing Services representative and which upon inspection is determined by MRC Bearing Services to be defective in materials or workmanship. Complete information as to service, mounting and relubrication should accompany any product returned for inspection. The provisions of this warranty shall not apply to any MRC Bearing Services product which has been subjected to misuse, improper mounting, assembly or lubrication; or which has been repaired or altered if such repair or alteration in the judgement of MRC Bearing Services would adversely affect performance of the product.

This warranty is in lieu of all other warranties, expressed or implied, including any limited warranty of merchantability or fitness for a particular purpose and is also in lieu of all other obligations or liabilities on the part of MRC Bearing Services, including any obligation or liability arising from contract, tort or otherwise for damages and in no event shall seller be liable hereunder or otherwise for loss of profits; special, incidental, or consequential damages of any kind. There are no other warranties, expressed or implied, made by MRC Bearing Services, except the warranty against defects in material and workmanship set forth above. MRC Bearing Services and SKF USA Inc. neither assume nor authorize any other person or firm to assume for it any other obligation or liability in connection with its products.
