

RBC Tyson

Tapered Roller Bearings...because so much is riding on them.

RBC
BEARINGS

999 Happy Valley Road
Glasgow, KY 42141
1.800.390.3300

In the bearing business, the Tyson name stands for reliability, durability, and performance. Tyson's history in tapered roller bearings dates from 1929. For decades, we have provided the trucking industry with tapered roller bearings. Bearings that are engineered and built to meet the toughest standards. No matter which road you travel.

Today, as part of **RBC Bearings**, the Tyson tradition of excellence continues. We offer:

- **QS9000 and ISO9001 certification.** Our leading-edge quality control system ensures compliance with customer specifications.
- **Fast, efficient service.** All bearings are manufactured and shipped from our Glasgow, Kentucky plant.
- **Exceptional sales, engineering, and customer support.** All located within the US.
- **Competitive pricing.** No one gives you more for your money.

These bearings will go the distance. Because they're tough. Tyson Tough.

Contact us today at 1.800.390.3300 to learn more about Tyson tapered roller bearings or other RBC bearings.
