

COMPLETE INTERCHANGE LIST FOR: FluoroNyliner* Bushing Bearings

EXPANDED LISTING

- Ideally Suited for Linear, Rotary and Oscillating Applications
- Designed for use in Contaminated, Washdown or Submerged Environments
- Proprietary Self-Lubricating Liners
- Resistant to Corrosion

AUGUST 1, 1998

*All Thomson Industries Manufacturing Locations are
ISO 9000 Certified and Automotive Facilities
Operate to QS-9000 Standards
General Motors Supplier of the Year Since 1995*

ISO 9000

FluoroNyliner* Bushing Bearings

■ Ideal for Linear & Rotary Motion ■ Best Used for Contaminated, Washdown, or Submerged Applications

■ Proprietary Self-Lubricating Composite Liner ■ Resistant to Corrosion

PART NUMBER MATRIX

The following is a guide to the part numbering system for FluoroNyliner Bushing bearings. To request a detailed technical bulletin, to place an order, or for further information, contact Thomson Industries, at 1-800-55-4-THOMSON or Fax: 1-800-445-0329. Free samples of FluoroNyliner Bushing bearings are available upon request.

[] = Part Number Specific Feature

Attention: Thomson FluoroNyliner* Bushing bearings are precision components. For best results and to preserve bearing warranty you must use the specified Thomson 60 Case* LinearRace* shafting.

For more information, or to place an order, please contact Thomson Industries, at 1-800-55-4-THOMSON, Fax: 1-800-445-0329, E-mail: nyliner@thomsonmail.com.

The information in this publication is believed to be accurate and reliable. However, it is the responsibility of the product user to determine the suitability for a specific application. While defective products will be replaced without charge if promptly returned, no liability is assumed beyond such replacement.

FluoroNyliner* Bushing Bearing

Advanced Linear Motion Products

The Thomson Industries Group of Companies specializes in the invention, design, development and manufacture of linear Ball Bushing* bearings; Roundway* roller bearings; 60 Case* hardened-and-ground LinearRace* shafting; Thomson Saginaw* and IBL* ball screws and ball splines; pre-engineered, pre-assembled, ready-to-install RoundRail* systems; AccuGlide* linear ball bearing systems; AccuMax* linear roller bearing systems; Nyliner* engineered-polymer bearings; precision bearing balls; and related accessories. Thomson Micron is an innovative designer and manufacturer of precision True Planetary* gearheads and position feedback transducers. Thomson products are used worldwide in the automotive, aerospace, machine tool, machinery and equipment, process control, robotics, automated assembly, material handling, packaging, medical and recreational industries.
